AVAILABILITY OF CITED DOCUMENTS

Non-USDA Patrons

The materials listed in this bibliography are available on interlibrary loan through your local library. The librarian in your Public, State, University or Corporate library can assist you in obtaining materials either in your area or directly from the National Agricultural Library. Current charges are:

Photocopies - \$5.00 for the first 10 pages
\$3.00 for each additional 10 pages

Microfiche - \$5.00 for the first fiche
\$.50 for each additional fiche

Microfilm - \$10.00 per NAL owned reel of microfilm.

Invoices are issued quarterly. Requests must comply with the National or International Interlibrary Loan Code. Questions about the availability of these materials may be directed to:

Lending Branch
National Agricultural Library
Beltsville, MD 20705
(301) 344-3755

USDA Patrons

The materials listed in this bibliography may be obtained by submitting one Form AD 245 for each item requested to your local Agency or Regional Document Delivery System Library or directly to the address above.

AUDIO-VISUAL INFORMATION ON ANIMAL WELFARE

The Americas' View of Animals [videocassette]. CEN/SHARE:

University of Minnesota Media Distribution; c1986; 1/2" VHS, 45 min.

Note: Four guests, from the Jewish faith, South American Catholicism, Fundamental Christian faith and Native American culture, discuss their views toward human-animal relationships in the Americas. The discussion reveals how religious beliefs and historical conventions contribute to today's polyglot of beliefs toward animals in the American society.

NAL Call No: Videocassette No. 323.

Cultural values, animals, religion.

Amphibians: Medicine and Husbandry [slide]. Daniel H. Ringler;

co-sponsors, American College of Laboratory Animal Medicine and Washington State University, College of Veterinary Medicine. Seattle, Wash.: Health Sciences Learning Resources Center; c1975; 64 slides, 23 min audio cassette, 1 guide.

Note: History of laboratory use, taxonomy, sources of amphibians, and water quality parameters. Signs, etiology and treatment of "red leg syndrome", Lucke renal adenocarcinoma, mycobacterial infection, pigmented fungal infection and parasites.

NAL Call No.: Slide No. 226.

Amphibia, animal husbandry, laboratory animals, instruction.

Animal Research: The Cost Of Hope [videocassette]. Micheal

Criley; 1985; 1/2" VHS (No. 151), U-Matic 3/4" (No. 149).

Note: Interviews with individuals representing both sides of the animal research vs animal rights debate. Stresses usefulness of/need for animal research.

NAL Call No: Videocassette Nos. 149 and 151.

Animal welfare, animal research, laboratory animals, ethics.

Animal Rights: the Issues, the Movement [filmstrip]. Animal

Rights Network, Inc. Westport, Conn.: The Network; 1982; 1 filmstrip, 123 fr., 1 sound cassette, 17 min., 1 teacher's guide, 18 p.; 35mm.

Note: Introduction to animal rightist viewpoints. *Sound accompaniment compatible with manual and automatic operation. Teacher's guide copyrighted 1983.

NAL Call No: Filmstrip No. 191.

Animal experiments, livestock farms, legislation, animal welfare, ethics.

The Animals Are Crying [motion picture]. P.M.S. Films; Peter A. Beltz. New York, NY: Learning Corp. of America; 1973; 16 mm color sound.

Note: Through a visit to an animal shelter and talks with shelter personnel, a young family becomes aware of the overpopulation of dogs and cats and the urgent need for animal birth control.

NAL Call No: Motion Picture No. 170.

Pets, dogs, cats, animal shelter, pounds, population control.

The Animals Film [videocassette]. Victor Schonfeld, Slick Pics International; Victor Schonfeld. New York: Cinema Guild; 1981; 1/2" VHS.

Note: Presents animal rightist viewpoints on a number of topics including animal population control, factory farming, hunting, animal products and animal experimentation.

NAL Call No: Videocassette No. 183.

Population control, livestock farming, hunting, animal products, animal experiments, saboteur, animal welfare.

Animals in Biomedical Research [videocassette]. CEN/SHARE: University of Minnesota Media Distribution; 1986; 1/2" VHS, 45 min.

Note: Panel discusses the need for animals in biomedical research. Examples of advances in medicine through animal research are presented. Also, alternatives to, and methods of, reducing the use of animals in research are explored. The limitations of animals in research and the use of animals in teaching are discussed.

NAL Call No: Videocassette No. 326.

Animal research, animal testing alternatives, animal welfare, medicine, ethics.

Bandaging and Splinting [videocassette]. Robert L. Leighton. Davis, Calif.: The University of California, Davis, School of Veterinary Medicine; October, 1977; U-Matic 3/4", 55 min.

Note: Provides instruction on bandaging and splinting techniques for pets.

NAL Call No: Videocassette No. 206.

Animals, bandage, splint, veterinary education, pets.

Biomethodology of the Laboratory Mouse [videorecording].

Richard Hitzelberg and Edward Lundgren; Richard Hitzelberg, Edward Lundgren, Jere Phillips. Silver Spring, Md.: MTM Associates; c1987; 1/2" VHS.

(cont.)

Note: Demonstration of basic techniques involving laboratory animals including identification, restraint, injection, blood withdrawal and euthanasia.

NAL Call No: Videocassette No. 200.

Laboratory animals, restraint of animals, biological techniques, mice, instruction.

Biomethodology of the Rat [videocassette]. Richard Hitzelberg and Edward Lundgren; Richard Hitzelberg, Edward Lundgren, Jere Phillips. Silver Spring, MD: MTM Associates; c1987; 1/2" VHS, 16 min 33 sec.

Note: Demonstration of basic techniques involving laboratory animals including identification, restraint, injection, blood withdrawal and euthanasia.

NAL Call No: Videocassette No. 200.

Laboratory animals, mice, biological techniques, restraint of animals, instruction.

Biomethodology of the Rabbit [videocassette]. Richard Hitzelberg and Edward Lundgren; Richard Hitzelberg, Edward Lundgren, Jere Phillips. Silver Spring, MD: MTM Assoc.; c1987; 1/2" VHS.

Note: Demonstration of basic techniques involving laboratory animals including identification, restraint, injection, blood withdrawal and euthanasia.

NAL Call No: Videocassette No. 200.

Laboratory animals, rabbits, biological techniques, restraint of animals, instruction.

Biomethodology of the Guinea Pig [videocassette]. Richard Hitzelberg and Edward Lundgren; Richard Hitzelberg, Edward Lundgren, Jere Phillips. Silver Spring, MD: MTM Associates; c1987; 1/2" VHS.

Note: Demonstration of basic techniques involving laboratory animals including identification, restraint, injection, blood withdrawal and euthanasia.

NAL Call No: Videocassette No. 200.

Laboratory animals, restraint of animals, guinea pigs, biological techniques, instruction.

Caesarean Birth [videorecording]. University of California, Davis, School of Veterinary Medicine; Robert L. Leighton. Davis, Calif.: University of California, Davis, School of Veterinary Medicine; c1977.

(cont.)

Note: Training film for students of veterinary medicine on common procedures and techniques of Caesarean operation using the dog.

NAL Call No.: Videocassette No. 218.

Dogs, Caesarean section, surgical operation, veterinary education.

Cage Sanitation: Use of Chemical Disinfectants [slide]. Northwest Committee for Training in Laboratory Animal Care; in collaboration with H.S. Center for Educational Resources, University of Washington; Ronald Orta and Lynn Dahm. Seattle, Wash.: H.S. center for Educational Resources, SB-56, University of Washington; c1984; 56 slides: col. + 1 sound cassette (13 min., 30 sec.) + 1 syllabus (28 cm). (Training Series in Laboratory Animal Care).

Note: Presents information on how the three classes of disinfectants are used in animal facilities. A complete cycle of small cage sanitation is demonstrated for a large facility using automatic cage-washing equipment. Sound accompaniment compatible with manual and automatic opera.

NAL Call No: Slide No. 230.

Disinfection, sterilizing, laboratory animals, cages, instruction.

Caging Systems, Bedding Materials & Environmental Considerations for Laboratory Rodents [slide]. Northwest Committee for Training in Laboratory Animal Care in collaboration with H.S. Center for Educational Resources, University of Washington; Stanley P. Liebenberg and Lynn Dahm. Seattle, WA: H.S. center for Educational resources, SB-56, University of Washington; c1985; 53 slides; col. + 1 sound cassette (22 min. 12 sec. ; 1 7/8 ips., mono.) + guide. (Training Series in Laboratory Animal care).

Note: This program presents the rationale for selection of cage style and bedding materials for laboratory rodents. In addition, the importance of controlling other factors in the immediate environment, including temperature, humidity, light cycle and noise are discussed.

NAL Call No: Slide No. 237.

Cages, laboratory animals, environmental factors, instruction.

Caring for Life [videocassette]. Galan Associates, Productions Inc.; 1985; U-Matic 3/4", 10 min 30 sec.

Note: Description of job role of veterinary nurse.

NAL Call No: Videocassette No. 145.

Careers, veterinary workers.

Carnivore Restraint and Handling [slide]; 1981; 112 slides, 1 audio cassette, 1 manual.

Note: Illustrates techniques for restraint and handling of various species of wild carnivores.

NAL Call No: Slide No. 195.

Wildlife, zoo animals, restraint of animals, handling of animals, instruction.

Changing Relationship Between Humans and Animals

Videocassette]. CEN/SHARE: University of Minnesota Media Distribution; c1986; 1/2" VHS, 45 min.

Note: Panel discusses the need for animals, a world without animals and options of life without animals and plants.

NAL Call No: Videocassette No. 321.

Animals, human, future, ethics.

Cow Handling [videorecording]. University of California, Davis, School of Veterinary Medicine; John W. Kendrick. Davis, Calif.: University of California, Davis; Nov., 1980; U-Matic 3/4", 19 min.

Note: Contents: Tape 1: Physical Restraint; Tape 2: Sampling, Medication & Special Treatment.

NAL Call No: Videocassette No. 227.

Cows, restraint of animals, handling of animals, medication, livestock, instruction.

Development and Reproduction of Mice in a Laboratory Setting [slide]. Northwest committee for Training in Laboratory Animal care in collaboration with H.S. Center for educational Resources, SB-56, University of Washington; Lynn Dahm, adapted from C.W. McPherson. Seattle, WA: H.S. Center for Educational Resources, SB-56, University of Washington; 1983; 39 slides; col. + 1 sound cassette (15 min. = 1 7/8 ips., mono.) + guide. (Training Series in Laboratory Animal Care).

Note: Interactive program in which the learner is provided with facts about normal development and reproduction and is asked to apply it to animal care situations. Supervised practice with live animals at the time of presentation is recommended to reinforce the learning experience and encourage skill-building and confidence. *Sound accompaniment compatible for manual and automatic operation.

NAL Call No: Slide No. 232.

Mice, laboratory animals, reproduction, instruction.

Diseases of Laboratory Animals as Complications of Biomedical Research [slide]. G.L. Van Hoosier; co-sponsors, American College of Laboratory Animal Medicine and Washington State University College of Veterinary Medicine. Seattle, Wash.: Health Sciences Learning Resources Center, University of Washington; c1975; 39 slides: col. + 1 sound cassette (21 min.) + 1 study guide (28 cm.). (Laboratory Animal Medicine and Science).

Note: Presents basic information to veterinary and other biomedical science students concerning laboratory animal medicine and science.

NAL Call No: Slide No. 225.

Diseases, laboratory animals, instruction.

Do Animals Reason? [motion picture]. National Geographic Society; in association with Jack Kaufman Productions, Inc. Washington, D.C.: The Society; 1975.
NAL Call No: Motion Picture No. 188.
Animals, intelligence.

Do Animals Think and Feel? [videocassette]. CEN/SHARE: University of Minnesota Media Distribution; c1986; 1/2" VHS, 45 min.

Note: Panel discussion of comparisons between human and animal behavior, consciousness and intelligence.

NAL Call No: Videocassette No. 319.

Animals, behavior, intelligence, human, ethics.

The Dog and Cat in Research [slide]. Douglas H. McKelvie; co-sponsors, Animal College of Laboratory Animal Medicine, Washington State University, College of Veterinary Medicine. Seattle, Wash.: Health Sciences Learning Resources Center, University of Washington; c1977; 72 slides, 1 sound cassette, 25 min, 1 7/8 ips., mono., and syllabus. (Laboratory Animal Medicine and Science Series).

Note: Research uses of cats and dogs, aquisition, physical examination, conditioning, health maintenance, housing and care.

NAL Call No: Slide No. 215.

Dogs, cats, animal experiments, animal husbandry.

Elephant Care and Handling [slide]; 1981; 75 slides, 1 audio cassette, 1 script.

(cont.)

Note: Presents procedures used in the care and handling of elephants.

NAL Call No: Slide No. 191.

Elephants, zoo animals, animal husbandry, instruction.

External Physical Exam of the Dog [videorecording]. The Department of Instructional Media for the School of Veterinary Medicine; Arthur Shamark. Davis, Calif.: The University of California, Davis; c1981; U-matic 3/4".
NAL Call No: Videocassette No. 225.
Dogs, physical exam, veterinary education.

A Feminist View of Human-Animal Relations [videocassette]. CEN/SHARE: University of Minnesota Media Distribution.; c1986; 1/2" VHS, 45 min.

Note: The concepts of "victim" and "distribution of powers" are discussed in connection with males and females and humans and animals. A historical perspective expressed through art is used to portray the connection between animal and child abuse.

NAL Call No: Videocassette No. 324.

Animal welfare, feminists, animals, ethics.

The Future of Human Animal Relations [videocassette]. CEN/SHARE: University of Minnesota Media Distribution; c1986; 1/2" VHS, 45 min.

Note: Panel discussion of the future for the human-animal relationship. Covered are such topics as what pets will be like in the future, how preparation of veterinarians will change, the future of food animals, and our changing expectations from pets.

NAL Call No: Videocassette No. 328

Pets, animals, humans.

Gnotobiotics in Production of Experimental Animals [slide]. R. Wescott; cosponsored by the American College of Laboratory Animal Medicine and Washington State University, College of Veterinary Medicine. Seattle, Wash.: Health Sciences Learning Resources Center, University of Washington; c1975; 47 slides: col. + 1 sound cassette (22 min.) + 1 study guide (28cm). (Laboratory Animal Medicine and Science).

(cont.)

Note: The development, maintenance and use of the isolator for production of experimental animals; sterilization of isolators and supplies; and microbiologic monitoring techniques.

NAL Call No: Slide NO. 219.

Gnotobiotic animals, laboratory animals, germ free animals, instruction.

The Guinea Pig: Biology [slide]. J. Darrell Clark and Henry J. Baker; cosponsors, American College of Laboratory Animal Medicine, Washington State University College of Veterinary Medicine. Seattle, Washington: Health Sciences Learning Resources Center, University of Washington; 1975; 51 slides + 20 min. audiocassette + manual.

Note: Anatomy, physiology, reproduction, nutrition, and pharmacology. Special attention is given vital signs, growth, and hematological uniqueness, as well as reactions to antibiotics and anesthesia.

NAL Call No: Slide No. 218.

Guinea pigs, diseases, anatomy, physiology, antibiotics, anesthesia, instruction.

The Guinea Pig: Diseases [slide]. J. Darrell Clark and Henry J. Baker; cosponsors, American College of Laboratory Animal Medicine, Washington State University College of Veterinary Medicine. Seattle, Washington: Health Sciences Learning Resources Center, University of Washington; c1975; 53 slides + 18 min. audiocassette + manual.

Note: Common or important diseases of guinea pigs in five major categories: bacterial infections, viral and chlamydial infections, parasitic diseases, neoplastic diseases, and nutritional and metabolic diseases.

NAL Call No: Slide No. 218.

Guinea pigs, diseases, instruction.

The Guinea Pig: Introduction and Husbandry [slide]. J. Darrell Clark and Henry J. Baker; cosponsors, American College of Laboratory Animal Medicine, Washington State University College of Veterinary Medicine. Seattle, Wash.: Health Sciences Learning Resources Center, University of Washington; c1975; 55 slides + 25 min. audiocassette + manual.

Note: Taxonomy, history, uses, husbandry, behavior and reproduction. Husbandry includes environment, nutritional requirements, costs, sexing and handling.

NAL Call No: Slide No. 218.

Guinea pigs, animal husbandry, instruction.

Hamster: Biology and Diseases, Part 2 [slide]. J. Darrell Clark; co-sponsors, American College of Laboratory Animal Medicine and Washington State University, College of Veterinary Medicine. Seattle, Washington: Health Sciences Learning Resources Center, University of Washington; c1975; 62 slides + 1 audiocassette + guide.

Note: Anatomy, physiology, and pharmacology of hamsters, and the following diseases: enteritis, bacterial diseases, viral diseases, parasites, neoplasms, amyloidosis and polystic disease.

NAL Call No: Slide No. 223.

Hamsters, diseases, anatomy, physiology, instruction.

The Hamster: Introduction and Husbandry, Part 1 [slide]. J. Darrell Clark; co-sponsors, American College of Laboratory Animal Medicine and Washington State University, College of Veterinary Medicine. Seattle, Washington: Health Sciences Learning Resources Center, University of Washington; c1975; 59 slides + 25 min. audiocassette + manual.

Note: Taxonomy, history, uses, husbandry, behavior, and reproduction. Husbandry includes environment and nutritional requirements, costs, sexing, and handling.

NAL Call No: Slide No. 223.

Hamsters, animal husbandry, behavior, reproduction, instruction.

Handling Hoofed Stock [slide]; 1981.

NAL Call No: Slide No. 198.

Animal handling, restraint of animals, hoofed stock, animal husbandry, instruction.

The Image of Animals Today [videocasstte]. CEN/SHARE: Univ. of Minnesota Media Distribution; c1986; 1/2" VHS, 45 min.

Note: A panel discussion of contemporary images of animals in American literature and mass media.

NAL Call No: Videocassette No. 320.

Animals, media, humans, values, image.

Intercultural Views of Animals [videocassette]. CEN/SHARE: University of Minnesota Media Distribution; c1986; 1/2" VHS, 45 min.

(cont.)

Note: Four guests from different socio-religious cultures (Hindu, Moslem, East African, and Buddhism) discuss various aspects of the human-animal relationship relative to their cultural habits, beliefs and social conventions. Comparisons are made to American views on the subject.

NAL Call No: Videocassette No. 322.

Cultural values, animals, religion, ethics.

Kiss the Animals Goodbye [videocassette]. Magic Window; Erick Friedl. Santa Monica, CA: Pyramid Film and Video; 1984; 1/2" VHS, 20 min.

Note: Discussion of issues concerning animal population control including euthanasia and adoption. Intended audience: junior high school students through adults.

NAL Call No: Videocassette No. 196.

Euthanasia, adoption, animals, population control.

Laboratory Animal Medicine: What It is and How It Relates to Veterinary Medicine [slide]. Health sciences Learning Resources Center, University of Washington; sponsors: American College of Laboratory Animal Medicine, Washington State University, College of Veterinary Medicine, Merck Company Foundation; Charles W. McPherson. Seattle, WA: The Center; c1975; 61 slides; col. + 1 sound cassette (25 min.: 1 7/8 ips., mono.) + syllabus. *Syllabus entitled: Laboratory Animal Medicine, prepared by Charles McPherson, c1975, rev. ed. 1980. (Laboratory Animal Medicine and Science Series).

Note: Program is designed to stimulate interest in laboratory animal medicine and science. Provides basis for further study and training for those students who choose to pursue a career in experimental animal medicine.

NAL Call No: Slide NO. 217.

Laboratory animals, veterinary medicine.

Laboratory Animal Medicine and Science [slide]. Robert A. Whitney, Jr., John B. Mulder, Charles W. McPherson, David P. Martin, Davaid A. Valerio, Harold W. Casey, D.K. Johnson; Slides in six carousel trays.

Note: Introduction and Taxonomy, 62 slides, 25 min. Biology and Use, 66 slides, 30 min. Husbandry and Breeding 79 slides, 25 min. Viral Diseases, 53 slides, 20 min. Bacterial Diseases, 72 slides, 25 min. Parasitic and Noninfectioous Diseases, 62 slides, 20 min.

NAL Call No: Slide No. 224.

Laboratory animals, veterinary education, diseases.

The Laboratory Rat: Biology, Husbandry, and Research Methodology [slide]. Henry J. Baker; cosponsors, American College of Laboratory Animal Medicine and Washington State University, College of Veterinary Medicine; Henry J. Baker. Seattle, Wash.: Health Sciences Learning Resources Center, University of Washington; 1977; slides; col. + 1 sound cassette + 1 study guide (28 cm.). (Laboratory Animal Medicine and Science).

Note: Describes standard procedures for housing rats in the laboratory and familiarizes the viewer with basic methodology employed for manipulating rats in research.
NAL Call No: Slide No. 221.
Rats, laboratory animals, animal husbandry.

The Laboratory Rat: Diseases [slide]. Henry J. Baker; cosponsors, American College of Laboratory Animal Medicine and Washington State University, College of Veterinary Medicine; Henry J. Baker. Seattle, Washington: Health Sciences Learning Resources Center, University of Washington; 1977; slides; col. + 1 audiocassette + 1 study guide. (Laboratory Animal Medicine and Science).

Note: Program will familiarize the viewer with the principal diseases of laboratory rats, giving emphasis to examples of active and latent infections.
NAL Call No: Slide No. 221.
Animal diseases, laboratory animals, rats, instruction.

The Laboratory Rat: Introduction [slide]. Henry J. Baker; cosponsors, American College of Laboratory Animal Medicine and Washington State University, College of Veterinary Medicine; Henry J. Baker. Seattle, Washington: Health Sciences Learning Resources Center, University of Washington; 1977; Slides + 1 audiocassette + guide. (Laboratory Animal Medicine and Science).

Note: Provides basic information concerning the role of the rat in a laboratory setting.
NAL Call No: Slide No. 221.
Rats, laboratory animals, instruction.

Man's Best Friends [videocassette]. Pacific Street Films Project, Inc; Fishchler, Steven and Joel Sucher. New York: Cinema Guild; 1985; 1/2" VHS.

Note: Examination of the animal research/animal rights controversy.
NAL Call No: Videocassette No. 182.
Animal welfare, animal experiments, ethics.

Marine Mammals and Handling [slide]; 1981.

NAL Call No: Slide No. 193.

Marine mammals, animal handling, instruction.

Marsupial Care and Handling [slide]; 1981; 54 slides + 1 audiocassette + guide.

Note: Illustrates principles of handling and restraint of various species of marsupials.

NAL Call No: Slide No. 192.

Marsupials, kangaroos, koalas, opossums, wallabies, restraint of animals, animal handling, instruction.

The Mongolian Gerbil [slide]. S.R. Wightman and J.E. Wagner; co-sponsors, American College of Veterinary Animal Medicine and Washington State University College of Veterinary Medicine. Seattle, Wash.: Health Sciences Learning Resources Center; 1979; 60 slides + 20 min. audiocassette + manual.

Note: Husbandry and reproduction, how the Mongolian gerbil is used in research, Tyzzer's Disease, enteritis and other conditions which affect pet gerbils and research animals.

NAL Call No: Slide No. 224.

Gerbils, animal husbandry, laboratory animals, instruction.

The Mouse [slide]. cosponsors, American College of Laboratory Animal Medicine, Washington State University, College of Veterinary Medicine. Seattle, Wash.: Health Sciences Learning Resources Center, University of Washington; 1975. Available from NAL.

NAL Call No: Slide No. 227.

Mice, laboratory animals, instruction.

Neuromuscular Blocking Agents [videocassette]. University of California, Davis, School of Veterinary Medicine; Robert M. Joy. Davis, Calif.: University of California, Davis, School of Veterinary Medicine; September, 1980; U-Matic 3/4", 52 min.

Note: Describes mode of action of various neuromuscular blocking agents by demonstrating effects on cat and chicken.

NAL Call No: Videocassette No. 221.

Birds, cats, muscle relaxants, drugs, curare, suxamethonium, veterinary education.

The New Research Environment [videocassette]. Foundation for Biomedical Research in cooperation with John Hopkins School of Medicine; The Foundation. Washington, DC: The Foundation; 1987 2 videocassettes 1/2" VHS with 1 pamphlet; 44 min 28 sec.

(cont.)

Note: Tape 1. The Animal Rights Movement: The Threat to Research. (14 min). Survey of animal rights controversy. Tape 2. pt.1 The animal care and use committee pt2. Common procedures and techniques pt.3 Survival surgery. (30 min.). NAL Call No: Videocassette No. 194. Animal experiments, laboratory animals, legislation, animal research, animal welfare, anesthesia, surgery, animal care and use committee, ethics.

Nonhuman Primates [slide]. Robert A. Whitney; co-sponsors: American College of Laboratory Animal Medicine, Washington State University, College of Veterinary Medicine. Seattle, Wash.: Health Sciences Learning Center, University of Washington; 1975-1977; 392 slides; col. + 6 sound cassettes (145 min.) + 1 study guide (23 cm.). NAL Call No: Slide No. 220. Laboratory animals, primates, veterinary education.

Nutrition and Feeding Methods for Laboratory Animals [slide]. Stanley P. Liebenberg and Lynn Dahm. Seattle, WA: H.S. Center for Educational Resources, SB-56, University of Washington; c1983; 58 color slides, 1 audiocassette (25 min), 1 7/8 ips., mono. and guide. (Training Series in Laboratory Animals Care).

Note: Presents the nutritional requirements of rodents, guinea pigs, rabbits, dogs, and cats. Feeding behaviors, typical feeding methods and risks associated with improper feeding are covered. Sound accompaniment compatible for manual and automatic operation. NAL Call No: Slide No. 216. Animal nutrition, laboratory animals, rodents, guinea pigs, rabbits, dogs, cats, instruction.

Orientation to Small Animal ICU [videorecording]. The Department of Instructional Media for the School of Veterinary Medicine; Art Shmarak. Davis, Calif.: University of California, Davis; April, 1977; U-matic 3/4", 22 min.

Note: Brief introduction to functioning of veterinary ICU equipment. NAL Call No: Videocassette No. 224. Intensive care unit, veterinary equipment, veterinary education.

Pinniped Identification [slide]; 1983; 32 slides + guide.

Note: Describes physical and behavioral characteristics of various species of pinnipeds to assist identification.

NAL Call No: Slide No. 199.

Pinnipedia, seals, sea lions, identification, behavior.

Practical Methodology: Endotracheal Intubation of the Rat and Hamster [videocassette]. Univ. of Calif, Davis, School of Veterinary Medicine. Davis, CA; October, 1985; U-Matic 3/4", 10 min. 30 sec.

Note: Demonstration of the proper technique for endotracheal intubation while anesthetizing the rat and hamster.

NAL Call No: Videocassette No. 204.

Anesthesia, endotracheal intubation, rats, hamsters, laboratory animals, veterinary education.

Practical Methodology: Endotracheal Intubation of the Guinea Pig [Videocassette]. University of California, Davis, School of Veterinary Medicine. Davis, CA; Oct. 1985; 1 sound cassette, U-Matic 3/4", 13 min.

Note: Demonstration of the proper technique for endotracheal intubation while anesthetizing the guinea pig.

NAL Call No: Videocassette No. 204.

Anesthesia, endotracheal intubation, guinea pigs, laboratory animals, veterinary education.

Practical Methodology: Endotracheal Intubation of the Rabbit [Videocassette]. Univ. of Calif., Davis, School of Veterinary Medicine. Davis, CA; Oct., 1985; U-Matic 3/4", 13 min.

Note: Demonstration of the proper technique for endotracheal intubation while anesthetizing the rabbit.

NAL Call No: Videocassette No. 204.

Anesthesia, endotracheal intubation, rabbits, laboratory animals, veterinary education.

Practical Methodology: Humane Handling and Laboratory Techniques for the Guinea Pig [videocassette]. Davis, CA; July, 1987; U-Matic 3/4", 19 min. 24 sec.

Note: Instruction for proper restraint and handling of Guinea Pigs. Demonstration of laboratory techniques using Guinea Pig (eg, administering injections, oral dosages).

NAL Call No: Videocassette NO.204.

Guinea pigs, laboratory animals, restraint of animals, handling of animals, veterinary education.

Practical Methodology: Humane Handling and Laboratory Techniques for the Mouse [Videocassette]. Univ. of Calif., Davis, School of Veterinary Medicine. Davis, CA; July, 1987; U-Matic 3/4", 18 min. 16 sec.

Note: Instruction for restraint and handling of laboratory mouse. Demonstration of common laboratory techniques using the mouse (eg, administering injections, oral dosages).
NAL Call No: Videocassette No. 204.
Laboratory animals, mice, restraint of animals, handling of animals, veterinary education.

Practical Methodology: Humane Handling and Laboratory Techniques for the Rabbit [Videocassette]. Univ. of Calif., Davis, School of Veterinary Medicine. Davis, CA; July, 1987; U-Matic, 25 min. 30 sec.

Note: Instruction for restraining and handling the laboratory rabbit. Demonstration of common laboratory techniques using the rabbit.
NAL Call No: Videocassette No. 204.
Laboratory animals, rabbits, restraint of animals, handling of animals, veterinary education.

Primates [slide]; 1981; 125 slides + 1 audiocassette + guide.

Note: Illustrates principles of handling and restraint of various species of primates.
NAL Call No: Slide No. 197.
Chimpanzees, gibbons, orangutans, tarsiers, husbandry, primates, restraint of animals, handling of animals, instruction.

A Question of Life [videocassette]. California Biomedical Research Association; The Association. Berkeley, Calif.: Cerrell Production Group; c October, 1984; 1/2" VHS.

Note: Discussion of the role of laboratory animals in the advancement of medicine. Lists medical benefits for humans and animals resulting from animal research.
NAL Call No: Videocassette No. 193.
Medicine, animal experiments, animal welfare, ethics.

Reptiles: Bacterial Diseases of Captive Reptiles [slide]. Fredric L. Frye; co-sponsors, American college of Laboratory Animal Welfare and Washington state University, College of Veterinary Medicine. Seattle, Wash.: Health Sciences Learning Resources Center, University of Washington; c1975; 55 slides: col. + 1 sound cassette (14 min.) + 1 syllabus. (Laboratory Animal Medicine and Science Series).
NAL Call No: Slide No. 222.
Reptiles, diseases, instruction.

Research Animals: A Realistic View [videocassette]. Southern Illinois University School of Medicine. Springfield, Ill.: Southern Illinois University Medical Television; c1978; 1/2" VHS, 13 min. 37 sec.

Note: Discusses the quality of animal care and equipment of a well-managed animal research facility. Includes visual tour through a model animal research facility.
NAL Call No: Videocassette No. 205.
Laboratory animals, animal experiments, research facility.

Research Methods for Studying Animal Behavior in a Zoo Setting [videorecording]. Minnesota Zoo and Washington Park Zoo; Dave Carlson, Steven R. Hage, Jill Mellen. Apple Valley, Minn.: Minnesota Zoological Garden; c1983; 80 min.; U-matic 3/4" with booklet.

Note: Contents: Tape 1, Introduction to Research; Tape 2, Sampling Methods.
NAL Call No: Videocassette No. 234.
Zoo animals, animal research, behavior.

Restraint and Handling of the Cat [videocassette]. University of California, Davis, School of Veterinary Medicine; Murray E. Fowler. Davis, Calif.: University of California, Davis, School of Veterinary Medicine; c1977; U-Matic 3/4", 15 min.

Note: Demonstrates methods of restraining and handling cats in a veterinary hospital setting.
NAL Call No: Videocassette No. 217.
Restraint of animals, handling of animals, cats, veterinary education.
